Additional information on benefit conditions

- The benefits you get on flights may be used by all the passengers in the booking, straight after the purchase is made, provided that the user is logged in when carrying out the purchase (i.e. carries out the purchase from their Vueling Club profile and uses the credit card). Cardholders who make purchases but are not registered in the portal, or who don't use Vueling Visa or Vueling UP! Visa, will not enjoy the benefits.
- If you are a member of Vueling Club and you book through the public portal (not Vueling Club), you may claim the Avios for the purchase according to the standard customer conversion rate for purchases at vueling.com (€1 = 1 Avios), not the Vueling Visa customer rate.
- The Avios are awarded to members of Vueling Club only if the name on the account matches the buyer's name and this person is on the booking, and it complies with Vueling Club's Terms & Conditions.
- When Vueling Club members collect Avios, they accept the Terms & Conditions of Vueling. <https://www.vueling.com/en/vueling-club/vueling-club-programme-terms-and-conditions>

Information on collecting Avios

- The Avios collected for bookings made on vueling.com and awarded by vueling.com (Table A) will be added to customer accounts after the date of the flight. In any case, the Avios will be collected when the booking is made. I.e. if any services are added to the booking at a later date, these will not give customers the right to enjoy the benefits or collect Avios for the booking.
- The Avios collected for the rest of purchases at stores other than vueling.com, and additional Avios awarded by CaixaBank will be added to customer accounts at the beginning of every month.
